

LICRON CRYSTAL™

PERMANENT ESD-SAFE COATING

The Benefit is Clear!

- Crystal Clear
- Permanently Static Dissipative
- Surface Resistivity of 10^7 - 10^9 ohms
- Complies with ANSI/ESD-S20.20
- Humidity Independent
- Superior Adhesion to Variety of Surfaces: Glass, Plastic, etc.
- Non-Ozone Depleting

Licron Crystal provides a clear, ESD-safe coating — even on plexi-glass!

MAKE ALMOST ANY SURFACE STATIC DISSIPATIVE:

Bins and packaging

Work stations and carts

Tools and equipment

Enclosures and work surfaces

LICRON CRYSTAL™

Permanent ESD-Safe Coating

Licron Crystal™ is a revolutionary and innovative concept in permanent static dissipative coatings. Versatile, crystal clear urethane coating that adheres to metal, plastic, and most other surfaces.

Ideal for converting standard bumpers, bins, tools, and other surfaces to ESD-safe, saving expensive replacement cost. The end result is compliant with ANSI/ESD-S20.20, which prevents static damage to sensitive electronic components.

Licron Crystal operates from 0-100% humidity. The cured coating is durable, will not chip and maintains 10^7 - 10^9 ohms resistivity.

Licron Crystal can be sprayed as an aerosol, or using standard spray guns or paint systems. As long as the coat is smooth and even, the finish will be clear. A grounding wire can then be attached (i.e. by conductive adhesive) similar to an ESD floor.

- Crystal Clear
- Permanently Static Dissipative
- Surface Resistivity of 10^7 - 10^9 ohms
- Complies with ANSI/ESD-S20.20
- Humidity Independent
- Superior Adhesion to Variety of Surfaces: Glass, Plastic, etc.
- Non-Ozone Depleting

1756-8S **LICRON CRYSTAL**
8 oz aerosol
Coats approximately 200 ft²

TECHSPRAY®

ESD PRODUCTS

1733 ZERO CHARGE MAT & TABLETOP CLEANER

- Rejuvenates ESD-Safe Mats
- Will Not Dry Out Surfaces
- Leaves No Insulative Film
- Non-Flammable
- No Ammonia

Specifications: 1733-QT - AT&T Com Code #406359414
1733-G - HP 9300-1921

1733-QT 1 quart in plastic bottle w/trigger sprayer
1733-G 1 gallon in plastic jug
1733-5G 5 gallons in plastic pail

1733-QT

1743 ZERO CHARGE SCREEN & KEYBOARD CLEANER

- Cleans Plastic & Glass
- Leaves ESD-Safe Coating
- Non-Streaking
- Leaves No Insulative Film
- Non-Flammable

Specifications: Meets or exceeds
MIL-B-81705B, NFPA 56A

1743-50PK 50 pre-saturated wipes in packets
1743-DSP 48 pre-saturated wipes in pop-up tub
1743-QT 1 quart in plastic bottle w/trigger sprayer

1743-50PK

1726 ZERO CHARGE ANTI-STAT COATING

- All-purpose static control
- For Plastics, Fabrics, and Carpet
- Fast Drying
- Non-Flammable

Specifications: Meets or exceeds MIL-B-81705B,
NSN 6850-01-324-4682, Delco C00013781,
NFPA 56A. USDA: approved A-4 rated.

1726-QT 1 quart in plastic bottle with trigger sprayer

1702 ZERO CHARGE HAND LOTION

- Improves Wrist and Heel Strap Contact
- Does Not Contain Silicone or Lanolin
- Non-Contaminating — Does Not Interfere with Soldering
- Non-Greasy

Specifications: Desco C00038201S
1702-8FP - HP9300-1731
1702-G - HP9300-6148, AT&T Com Code #406359406

1702-8FP 8 oz plastic bottle with finger pump
1702-G 1 gallon plastic bottle

1702-8FP

2362 ANTI-STATIC WIPE

- Anti-Static — Will Not Generate Charge
- Lint-Free Poly Wipe
- Tear Resistant

2361-150 150 9"x9" (23cm x 23cm) flat wipes
